

Ajay Gowlikar

Address: Hyderabad, Telangana

Email: ajaygowlikar70@gmail.com | Phone: +91 7286040211

PROFILE SUMMARY

Graduate with a strong foundation in JavaScript and modern web technologies, including React.js, HTML, and CSS. Experienced in developing full-stack web applications, with a focus on front-end development using React.js. Proficient in integrating REST APIs and optimizing user interfaces for enhanced performance and interactivity. Strong problem-solving abilities, effective communication skills, and a collaborative team player. Quick learner, eager to contribute to innovative projects..

EDUCATION

Bachelor's Degree in Electronics and Communication Engineering

Nalla Malla Reddy Engineering College (JNTUH Affiliated) | Hyderabad, India

Graduation: August 2023

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript
- Web Technologies: HTML, CSS, JavaScript, React.js, REST APIs, HTTP, CRUD operations
- Databases: SQL, MySQL
- Frameworks & Libraries: React.js, Spring Boot
- Tools: Git, GitHub, VS Code, npm
- Soft Skills: Problem Solving, Communication, Team Collaboration, Quick Learner

PROJECTS

1)Portfolio Website (React.js Project)

- Developed a personal portfolio website showcasing projects, skills, and contact information using React.js.
- Utilized React Router for smooth navigation between pages and dynamic content rendering.
- Implemented responsive design principles to ensure a seamless experience across devices.
- Technologies: React.js, HTML, CSS, JavaScript, React Router

2)Full-Stack Web Application Project

- Developed a Full-stack Web App with Vue.js frontend, Spring Boot backend, and MySQL database.
- Implemented robust security with JWT authentication, user registration, and password management.
- Designed a feature-rich user dashboard; proficient in responsive UI design and RESTful API Development.

3)Weather-Web-App

- Developed a responsive Weather Application providing detailed insights including temperature, humidity, and wind speed.
- Integrated the OpenWeatherMap API for real-time weather data.
- Technologies: HTML, CSS, JavaScript, J2EE, Java, Servlet, JSP

WORK EXPERIENCE

Software Engineer

Rises Labs IT Solution Pvt Ltd | Dec 2023 - Mar 2024

- Played a pivotal role in backend development using Spring Boot, coupled with data management through MySQL.
- Improved user interfaces by integrating RESTful APIs and backend services to enhance application interactivity and performance.
- Developed REST API CRUD operations for efficient data management.

ACHIEVEMENTS

1st Runner-up - Smart India Hackathon Sep 2022

- Collaborated on a team project with the objective of enhancing emergency response capabilities through the construction of a security drone.
- Developed an Android application using MIT App Inventor, employing block coding techniques.
- Facilitated efficient transmission of the user's real-time location via SMS to designated contacts in emergency situations.
- Ensured efficient emergency location transmission to drone operators, prioritizing fast response during emergencies.

DECLARATIONS

- I hereby declare that all the particulars furnished in this application are true, complete and correct to the best of my knowledge and belief.
